

# Oxide

METALLIC FEEL

OXIDE è la superficie dalla spiccata personalità "industrial" che sorprende per il realismo con cui riproduce le sensazioni tattili e visive dei metalli ossidati, a partire dalle sfumature cangianti di colore, fino ai riflessi lucido-opachi, che danno al prodotto una connotazione quasi tridimensionale.

Una gamma composta da 5 diverse colorazioni, ciascuna pensata per creare spazi dal carattere non convenzionale e sperimentare con abbinamenti inediti e materiali a contrasto.

OXIDE is the surface with a distinctive "industrial" identity surprising for the realism of the tactile and visual sensations of the oxidized metals reproduced. This effect is given by shimmering shades of colour and glossy-matt reflections which give to the product an almost three-dimensional connotation.

Oxide is a range of 5 different colours; each colour is designed to create spaces with an unconventional feature.

Oxide is suitable for experimentations with unusual matchings of contrasting materials.

## 3D tech

WALL | FLOOR

**3D Tech** è la nuova tecnologia che consente di applicare differenti materie ceramiche, anche a spessore, in perfetta corrispondenza con la grafica sottostante, realizzata in digitale ad altissima definizione. Un processo produttivo rivoluzionario, che combina la matericità con l'estetica del prodotto, fino ad ottenere superfici dallo straordinario valore sensoriale.

**3D Tech** is the new technology able to apply different ceramic materials, even within thickness, integrating them perfectly with the underlying graphics, made using high-definition digital technology. A revolutionary production process that combines the textures with the aesthetics of the product, resulting in surfaces of outstanding sensory value.
